Subject: RE: concerns about SFPUC compost

FYI that I called both numbers:

- 1) I had to leave a voicemail
- 2) I got to talk to the person and he prefers to wait the response we send to OCA to review our response & findings.

This means, we really need to send a response, and I think we should, at least to those 1,500+ who emailed. Is Laura still looking at the statement?

What are we telling them if we are concerned about the fact that Laura did not approve the statement yet? Same

7/2/2010

talking points we have used for the Community Gardens?

Subject: concerns about SFPUC compost

Tyrone,

As discussed, can you please have the appropriate person follow up on these two voicemails I got today re concerns about SFPUC's compost:

2/11 - Lori Penichi (sp?), Stanford University grad, concerned about "SFPUC giving away toxic sludge as organic compost." Tel: 972-980-7176.

2/11 - (no name), about "organic sludge". Tel: 830-627-8603

Thanks,

Johanna
